MISSISSIPPI KIDNEY FOUNDATION

MISSION STATEMENT

The mission of the Mississippi Kidney Foundation, chartered in 1965, is to serve Mississippi kidney patients by providing quality programs and services, to provide education and screening to promote the prevention of kidney disease, and to promote organ donation throughout the state.

LETTER FROM THE PRESIDENT

Johnny Maloney, MKF President; **Lynda Richards**, MKF Director of Patient Services; **Gail Sweat**, MKF Executive Director; and **Lee Parrott**, MKF President Elect

MISSISSIPPI
KIDNEY
FOUNDATION
1965 50th 2015
ANNIVERSARY

Dear Friends:

The start of the 50th birthday of your Mississippi Kidney Foundation has been exciting! A lot of events have gone on behind the scenes to keep the Mississippi Kidney Foundation financially strong, while also helping more patients in need.

We want to say thanks for your participation during this past year at the Michael Rubenstein Kidney Walk, the Pediatric Nephrology Christmas Party at UMMC, the most attended Uptown Drawdown ever (Jerry Rice will try to make the Uptown Drawdown next year!) and the Kidney Patient Picnic at the Ag Museum.

Gail and Lynda have made it possible for the Mississippi Kidney Foundation to help more Mississippians with more free screenings throughout our great state, along with sponsoring our first ever patient conference in Columbus. Gail and Lynda are sparkplugs that make things happen, and we are so lucky to have them on our team.

Being the Mississippi Kidney Foundation, the money we raise in Mississippi stays in Mississippi, and this past year we received a clean bill of health from the Secretary of State's office.

Lee Parrot, a person of vision, is taking over as president. Lee also is responsible for getting Jerry Rice as our spokesperson. Lee is our MC at the Patient Picnic and cheerleader at the Michael Rubenstein Walk. Please help her anyway you can these next two years.

Thanks for letting me serve as your president, and let's keep helping Mississippians every day.

Johnny Maloney

OUR LEADERSHIP

“It has been an honor to be a part of this organization for the past 3+ decades, serving as President during one of those years. All money raised stays right here to meet the needs of Mississippians. The quality and amount of assistance provided by our staff and volunteers is truly remarkable, as kidney disease is quite prevalent in Mississippi, and the need is great. It is so gratifying to be able to help.”

**Kent Wilkinson, MKF Board Member,
Raymond James Financial**

EXECUTIVE DIRECTOR

Gail G. Sweat, MS Kidney Foundation

Making a Difference with *Concern, Compassion & Results*

Mississippi has over 6,000 kidney patients on dialysis, with more being added every day, giving our state one of the highest rates of kidney failure per capita in the nation. As the numbers increase, the Mississippi Kidney Foundation must diligently search for ways and means to provide financial and emotional support for these patients. With the support of our community partners and our wonderful volunteers, we are able to maintain ongoing, active programs and services, tailored to meet the specialized needs of kidney patients and those at increased risk of kidney failure. To that end, every dollar continues to be carefully spent where it can provide the maximum amount of support to those who call on us for help and hope.

“The Mississippi Kidney Foundation has been an angel in a time of need for my patients.”

***Dr. Mark Klein, Nephrologist
Central Nephrology Associates***

“The patient’s health, both emotionally and physically, can be seen in the services you offer. Your Foundation provides “HOPE” that we are able to pass on to the patients and their families. This “HOPE” may be a newsletter, cookbook, t-shirts, calendars, nutritional samples, renal vitamins, financial assistance, and more.”

***Lynne Curtin, Dietitian
Hattiesburg Clinic, Collins, Waynesboro, and
Hattiesburg***

“The Mississippi Kidney Foundation is a wonderful organization and makes my job as a social worker much easier. The staff is always helpful and will go out of their way to meet a need that my patients have. They have great ideas for Fundraisers and like to include social workers in their plans.”

***Marcy Jamison, Social Worker
FMC Tupelo & Corinth***

EDUCATING to Promote Awareness

The Jerry Rice Kidney Disease Awareness Campaign

Our largest ever kidney disease awareness campaign was more successful than we ever dreamed possible.

We are fortunate to have the support of Jerry Rice! His message was simple:

“Kidney disease runs in families. It can hit any family. I should know. It hit mine. If you have high blood pressure or diabetes, GET TESTED! Call the Mississippi Kidney Foundation and find out when the next free screening will be in your area.”

The MS Kidney Foundation has received hundreds and hundreds of phone calls from those at risk, asking when and where the next free screening will be. The Jerry Rice PSAs ran throughout the state; Jerry Rice cards were printed, and there were also Jerry Rice billboards.

This year the MS Kidney Foundation was very grateful to receive a donation from Jerry Rice in the amount of \$20,000.

Free Screenings for Kidney Disease

With the success of the publicity generated by Jerry Rice, many FREE screenings were held, statewide. The screening, entitled REAP (Renal Evaluation and Assessment Program), is designed to target those at risk for kidney disease. Partnering with Quest Diagnostics, tests include a full renal panel, complete blood count and cholesterol check. Additional tests include blood pressure, blood sugar and urinalysis. During our fiscal year (July 1, 2014 – June 30, 2015), we had 20 free screenings for kidney disease and screened 1,610 people.

“Each time that this free screening is offered at the Jackson Medical Mall, I AM THERE! They make me feel at home!”

**Eddie Horne
Jackson resident**

Are You at Risk? Campaign

The brochure, *Kidney Disease: The Silent Disease...Are You at Risk?*, is distributed throughout the state with the purpose of educating about kidney disease. Those with risk indicators are encouraged to have the tests that detect early kidney disease. Packaged in bundles of 50, these are available for health fairs, churches and medical clinics.

“I’m a Kidney Fan!” Campaign

These fans, designed to be both educational and useful, are distributed at dialysis units, health fairs, churches, etc. The fans provide information related to taking care of your kidneys, as well as listing the risk factors of kidney disease. Information also stresses that kidney disease runs in families and that family members with a history of kidney disease should be tested. Over 50,000 of these fans have been distributed, statewide, to African American Churches and Health Fairs.

REAP in Collins, MS

PROVIDING

Emergency Assistance

The MS Kidney Foundation works closely with over 60 renal social workers, at 80 dialysis units across the state, in an effort to better assess the needs of all dialysis patients.

Crisis Intervention Fund

Funds provide assistance for patient emergencies such as medications, transportation, utilities, food, gasoline, etc. Through the Dialysis Challenge presented by the Annual Walk, dialysis units raise funds in their communities to be used for patients in their units. 1,165 patients were helped with emergency funding during this fiscal year.

“The MKF really comes through for kidney patients when they are in a crisis!”

Becci Gilliland
Social Worker
DaVita Ocean Springs

“The MKF TAP fund has provided assistance to many patients that would’ve otherwise really struggled to get to their access appointments.”

Charmen Shoemaker
Social Worker, Fresenius Oxford & Sardis

Transportation Assistance for Patients (TAP Program)

TAP, started in 2013 as a pilot program of the MS Kidney Foundation, has continued to fill an important need. Financial assistance is provided to assist with transportation needs. This is NOT designed for transportation to and from dialysis. It is for transportation needs for patients who need gas money related to emergency access appointments, home dialysis/PD training and/or clinic visits and transplant evaluation travel. 159 people received assistance through TAP.

“We have rural patients that would have missed their home clinic visit with the doctor if they weren’t provided transportation through TAP.”

Aubrey McMillan
Social Worker
Fresenius Southaven & Tunica

ADDRESSING *Nutritional Needs*

The MKF works closely with over 50 renal dietitians, at 80 dialysis units across the state, in an effort to assess the dietary needs of patients on dialysis. The Renal Dietitians of Mississippi have formed a group that meets 2-3 times a year for the purpose of education and networking.

“...definitely helps the albumin and nutrition status.”

**Dodie Shelby, Dietitian
Hattiesburg Clinic in Laurel,
Bay Springs & Pachuta**

▪

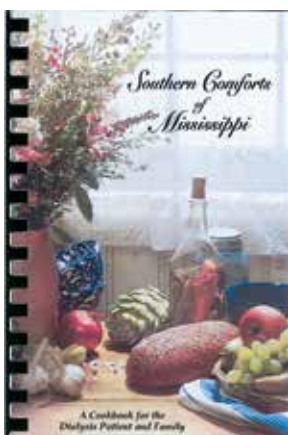

“...one patient’s albumin has gone from 2.6 – 3.3 in just two weeks!”

**Constance Kilgore, Dietitian
Hattiesburg Clinic in Richton,
Wiggins & Picayune**

▪

“...patients have better appetites when they start taking the vitamins.”

**Kimberly Singleton, Dietitian
Fresenius Meridian**

Southern Comforts of Mississippi, a cookbook for dialysis patients

Nutritional Supplement Program

In an effort to address some nutritional needs of end stage renal disease patients, the MKF provides a nutritional supplement to dialysis patients across the state. LiquaCel, a concentrated liquid, is given to patients with dangerously low albumin levels and is administered during their dialysis treatments. This supplement is offered to all 80 dialysis units across the state and has been proven to increase lab values.

Renal Vitamin Program

The MKF continues to assist with additional nutritional supplement needs of ESRD patients, specifically with vitamins and minerals. Distributed by the dietitians, the Renaltab II vitamins are designed to counter balance the effects of dialysis and renal specific drugs that may interfere with vitamin absorption and activity.

Southern Comforts of Mississippi

This cookbook, provided free of charge, was developed by a team of Mississippi Renal Dietitians and is designed for dialysis patients and their dietary needs. The cookbook is now in its 7th printing. Dialysis patients around the country may purchase the cookbook for \$10.

“Binder Reminder” Pill Boxes

The MKF has ordered additional “binder reminder” pill boxes that are specifically designed for carry-along in your pocket or purse. Phosphate binders are pills that dialysis patients must take with each meal to help protect them from absorbing too much phosphate from food and drink.

Through the Renal Dietitians of Mississippi, the MKF works closely with the over 50 dietitians that work at the 80 dialysis units in the state.

ENCOURAGING

Organ Donation and Transplantation

Transplant Emergency Fund

Working with the transplantation program at the University Medical Center, this fund provides assistance for transplant patients who have emergency needs such as transportation assistance for follow-up clinics and other needs associated with the health and well-being of these transplanted patients.

“Live Organ Donation” Campaign

Partnering with the Transplant Department at UMMC, the MS Kidney Foundation has provided a booklet promoting “Live Organ Donation.” The MKF works closely with UMMC, which is the only hospital in the state that performs kidney transplants.

Transplant Tote Bags

The MKF provides large tote bags for transplant patients upon discharge from UMMC.

Kidney Transplant T-Shirts

The Mississippi Kidney Foundation has created T-shirts that are given to kidney transplant recipients that receive a kidney at UMMC. Designed by Ashley Koehler of mapmystate.com, these shirts are a nice way for the patients to promote the successful transplant program at the University of Mississippi Medical Center.

“Thank you for the t-shirt provided to me as a transplant patient. I will wear it with pride! Your nice gesture was very touching to me and my wife.”

**Willis Clark
Pelahatchie, MS**

“Why have I been on the MKF board since 1979? One reason and one reason only...THE PEOPLE. Primarily, the people we help and serve, but also the outstanding individuals with whom I have worked alongside of all these years. There is not a finer and more committed group anywhere.”

**Sam Lane, MKF Board Member,
First Commercial Bank**

“Thank you very much for the kidney transplant shirt. I have enjoyed wearing it, and it is also a nice keepsake.”

**Charles Worlow
Aberdeen, MS**

“First, I have to thank God for giving me the gift He did, as well as a second chance for a better life. Secondly, I would like to express my thanks to the Mississippi Kidney Foundation for the wonderful T-shirt. I am extremely thankful for your thoughtful gift and your consideration is truly appreciated.”

**Tara Dodd
Belzoni, MS**

DELIVERING

Quality Programs and Services

Patient Conference in McComb, MS

Annual Patient Conferences

During this past fiscal year, patient conferences were held in Jackson, McComb and Columbus. The conferences are designed for patients to: be empowered by the knowledge they will receive; to broaden their network of peer support by meeting others; to receive answers to important questions about their care; and to be motivated and inspired! Providing sponsorship were Genentech and Novartis. Speakers included dietitians, social workers, nephrologists, as well as someone from the transplant department at UMC.

“Invest in Your Future” Program

In an effort to help Mississippi kidney patients become better equipped to achieve their goals and opportunities through further schooling or employment, the Mississippi Kidney Foundation now offers an incentive program for those who missed out on the chance for a high school diploma. Free GED classes are offered throughout the state; however, the GED exam costs \$120.00, and some patients do not have available funds for the exam. MKF will pay the exam fee, and once the patient passes the exam, will give her/him \$250.00 to help with further schooling expenses (such as tuition or books) or job-hunting expenses. Eleven patients have now obtained their GED.

Annual Kidney Connection Calendar

An annual calendar, complete with kidney-friendly recipes, helpful facts and highlights of Mississippi patients, is distributed to approximately 11,000 patients and staff members at the dialysis units throughout the state.

“The Kidney Foundation is a wonderful blessing to our patients and the staff is super!”

**Phyllis Camp, Social Worker
Fresenius Tupelo**

Medical Identification Jewelry

Medical identification bracelets or necklaces are available for kidney patients through the MKF office at a reduced price. Forty (40) patients received medic IDs during the past fiscal year.

Patient Family Picnic

An outgrowth of past support groups, the annual picnic, held each year in Jackson, is a fun time for patients and their families to take a break from dialysis and come together for food, fun and fellowship.

This year’s picnic, attended by over 400 people, was held in June at the Mississippi Ag Museum.

Food is provided by Catering by George’s, and music is courtesy of Sound Design.

Kidney Patient Connection Newsletter

Twice a year, patients throughout the state receive copies of our annual newsletter, The Kidney Patient Connection, through dialysis units. The newsletters contain human interest stories about patients and caregivers, as well as information about the programs and services provided by MKF.

Pediatric Nephrology Holiday Party

The MKF sponsors an annual holiday party for pediatric nephrology patients at UMMC. Family members are invited to attend, along with their children who are pre-CKD, on dialysis, or transplanted. Gifts and food provide a nice break for these patients during the holiday season. This past year they were entertained by magician Robert Day, and a surprise visit was made by Santa Claus.

FUNdraising Opportunities

The Mississippi Kidney Foundation is committed to helping the dialysis units in Mississippi come up with creative ways to generate funds to be used at the units for patient emergencies. This past year, the MKF ordered 5,000 T-shirts with the message, "Dialysis Patients... Ordinary People Doing Extraordinary Things." Through this T-shirt project, the dialysis units in MS raised over \$20,000; 100% of these funds will be used for patient emergencies.

Thank you to our T-shirt sponsors: **C Spire, MTM, UMMC Transplant, Newk's, Forrest General Hospital, Hattiesburg Clinic, BankPlus, MORA, Dr. & Mrs. Otis Gowdy, Jr., and Sharon & Johnny Maloney.** And thank you to Ashley Koehler of mapmystate.com for designing the shirt.

Health Fairs/Urinalysis Testing

The MKF attends Health Fairs to promote education of kidney disease. On-site urinalysis testing provides immediate results regarding protein in the urine, which can be an early indicator of kidney disease. Health fairs were conducted at the Jackson Convention Center, the MS State Capitol, the Trade Mart and area churches.

Toll Free Number

To increase the accessibility for Mississippi kidney patients, the MS Kidney Foundation has a toll free number, **1-800-232-1592.**

Speaking Engagements

The staff of the Mississippi Kidney Foundation spreads the message of the MKF with radio and television interviews, as well as African American Churches and other organizations.

"The patients really enjoy the MKF calendars that are provided each year. The recipes and education segments help the patients learn new things each month, and the patient spotlight section provides a great deal of encouragement for them."

**Charmen Shoemaker, Social Worker
Fresenius Oxford & Sardis**

Generating Revenue

Revenue Generating through **SPECIAL EVENTS**

Special events provide several different means for corporate sponsors, volunteers, and the community, as a whole, to participate and share in bringing help and hope to Mississippi's kidney patients. 100% of all funds raised stay in Mississippi.

Uptown Drawdown Gala

The 21st anniversary celebration of the Uptown Drawdown Gala was held on February 28, 2015, at the Country Club of Jackson. Over 450 guests enjoyed a wonderful evening of fine food and drink, live music provided by the Bluz Boys Band, and a silent auction featuring art and other items. Complimentary photographs were available, compliments of Wiggins Photography. Long-time dialysis patient, Tom Rice, brother of Jerry Rice, presented a generous check from Jerry in the amount of \$10,000. At the end of the festivities, four winners split the \$10,000 jackpot. Over \$150,000 was raised.

Michael Rubenstein Memorial Kidney Walk

The Michael Rubenstein Memorial Kidney Walk on October 4, 2014, was a huge success with beautiful weather and lots of walkers to enjoy the day. Over 50 dialysis units across the state participated by raising funds for their unit through individual fundraisers and soliciting general donations. Those funds are being used as needs arise for patient emergencies, transportation or patient appreciation. Over \$100,000 was raised.

Kidney Kars Program

We still accept donations of motorized vehicles, receiving many donations from previous donors. Our best advertisement continues to be word of mouth. Mid-South Auto Auction continues to sell the cars at no charge to the MKF.

Additional Sources of Revenue

- The Bower Foundation
- Corporate and Individual Giving
- Memorial Contributions
- Bequests
- Grants

The MS Kidney Foundation is grateful to The Bower Foundation, which has provided a grant to the MKF for the past 17 years.

“Since 1998, the Bower Foundation is a proud funder and supporter of the work of the Mississippi Kidney Foundation. MKF is committed to using their resources creatively and effectively to improve the lives of renal patients in our state. The Bower Foundation is appreciative of all the work of MKF to make their mission a reality.”

Anne Bower Travis, The Bower Foundation

The Michael Rubenstein Memorial Kidney Walk on October 4, 2014, raised over \$100,000. These funds are being used for patient emergencies.

STATEMENT OF ACTIVITIES

"I am a part of this organization because I have seen first hand how every gift to this organization has been put to good use in serving people in need. MKF spends very little on administration so that a large part of every dollar reaches those men, women, and children the money is intended to serve. I have also had friends who called on this organization for services and their level of appreciation reflects the importance of the programs in this state and that the MKF is on target as to how their funds are being spent."

**Cal Wells, MKF Trustee Emeritus,
Phelps Dunbar**

MISSISSIPPI KIDNEY FOUNDATION, INC.

STATEMENT OF ACTIVITIES
